Arguments

- For the recognition of Doble RR and perform freely an orchestra concert for the public of Curaçao
- With almost no financing they made a really impressive difference in the life of thousands of people of all walk of lives. Touching the heart of children, elders, those in needs and every volunteer who became a better person after giving a helping hand. Who else can do that than the two directors who works days and nights without having normal weekends and holidays just for the love of humanity! They should really be the winner!
- Consistency
- Continued investment as foundation in different social projects as corporate citizens!
- the only government NV that has managed by example
